

April 22, 2007

Thanks to all who joined us and participated in our annual MHO Day on April 19 in Springfield.

Terry Nelson met every incoming bus yesterday at the State of Illinois Capitol Building and then met with each community organization throughout the day.

And special thanks to those home owners organization leaders for another super job in organizing our time so we could visit with our senators and representatives and to drop off Thank You notes and our position paper on SENATE BILL 688.

My thanks to Pat Fogerty and Jim Popp from Golf Vista for another smooth visit to Springfield. In fact, this event was so organized we may be able to schedule next years trip at 8am rather than 7am.

Yet it's still hard to believe that so many homeowner associations choose to ignore this once a year event . It's an opportunity to express your support and interest in seeking validation in our choice of home ownership, through permanent legislation.

It was also good to see so many familiar faces from our Willow Estates friends in Elgin.

Phil Schelinski - Director
